REPORTING & MONITORING

IS REPORTING AND MONITORING BIBLICAL?

Paul referred to monitoring and compared the ministry of giving between districts of churches. In 2 Corinthians 8, he says, "...I am testing how genuine your love is by comparing it with the eagerness of the other churches" (NLT). Paul was clear that he was interested in the spiritual test of their devotion to Christ and each other. 2 Corinthians 2:17 refers to the practice of those in the early church who were "peddling the word of God for profit." Reporting and monitoring bring integrity and transparency to resourcing Gospel advancement."
