

Steward of my Territory

Lyrics and music by Kimberly Houlston

VERSE 1

The earth is quite incredible
God's made this place for us
He's asked us to take care of it
and placed it in our trust
The world's our home,
it's where we live so every boy and girl
Please take care of our environment
be good stewards of our world

PRE CHORUS

'Cause there are seven things we can do, to
make this world a better place too
Yes seven steps we can take,
start them now, don't hesitate
The seven ways to show we care
and seven ways to start to repair
This world God's created and placed in our
trust, so starting right now we really must

CHORUS

Reduce, reuse, repair and regift,
recover, recycle and refuse
Reduce, reuse, repair and regift,
recover, recycle and refuse

Reduce, reuse, repair and regift,
recover, recycle and refuse
To better care for the world God created,
these are some things we can do

VERSE 2

Reduce and buy things that will last longer,
reuse what you already have
Repair what's been broken
and save your money
Regift your things if you have too many
Recover by composting to help the
environment, recycle what you can too
Refuse to accept things you do not need,
yes these are 7 steps that you can do

BRIDGE

Reduce - buy things that last longer
Reuse - you've got it, just use it again
Repair - get it fixed, saves money
Regift - don't just throw it away
Recover - composting
will help the environment
Recycle - paper, plastic, metal, glass
Refuse - don't accept things
you don't really need

GRATEFUL
LIVING
for Kids!
