

HELP FAMILIES PLANT TO PROSPER

Mary is a solo mother of five who works tirelessly to provide for her children. Each day, she tends to her garden, selling flowers and vegetables to support her family. Despite the challenges of raising her children alone, Mary remains focused on her goal of giving them a brighter future. She dreams of seeing all her children educated, strong in their faith, and equipped for a better life ahead.

"What is important for me is important for my children too. They must know God, be educated, and have a bright future."

This October, we have an opportunity to plant seeds of hope for families like Mary's. Your gift will help provide training, resources, and support for families in New Zealand and across the world.
